Some excerpts that have blessed me....but the book has much more, recommend you buy a copy yourself. One of the best.

p 23 "When I touched the fruit to my lips, it evaporated and melted into the most delicious thing I have ever tasted. It was like honey, peach-juice, and pear juice. It was sweet but not sugary. My face was filled with the juice from the fruit."

p 27 "There were no waves on this lake. It was crystal clear and appeared to be miles deep: seemingly bottomless. It gave off a glow from the interior." p 35 "I saw children playing along the shores of the seas and lakes. There are many lakes in heaven and there was no danger – no harm could come to them."

p 85 "City of God – There were mountain that had to be 50,000 feet tall. And they had snow. The snow never melted even though the temperature was always just right."

(Paraphrased p 31-38) A little girl came up to Richard about 8 years old with beautiful blonde hair, she had died of cancer. She had lost her hair due to cancer and she said to Richard, "do you want to see what I can do", she messed up her hair and it return to perfection. Then she said, do you want to hear me sing, she began singing in the most beautiful, powerful soprano voice and the choirs of heaven joined in.

No child is ever lost, Jesus has everyone of them. A young boy was sitting at a piano that seemed to be 100' in every direction. Children were playing a game to see how high they could jump and float down like a butterfly. Children were playing along the shores of seas and lakes. They played in the water, on the water and under the water. It seemed mandatory that children play have a good time. There were children's choir. Children had abilities and talents that God had ordained for them to have from birth and they were magnified millions of time over in heaven.

(Paraphrased pgs 99-107) Richard asked one of the angels, how time is measured in heaven. The reply, you mean time as you know it. Time here is not measured in such trivial things as years, but in ages where the glory of God rolls forever.

He saw at least 70 classes of angels. Some were 12-15 feet tall and as wide as 4-5 of the biggest line-backers you have seen. Some had swords that were 15' long and on fire, they were warfaring angels and their hands are on fire. One had a large book and was writing with a quill like pen that looked like 6' feet long, golden. The book was some type of golden material and looked like it weighed hundreds of pounds. He held it in one hand and wrote with the other hand. God keeps a records of every thought and deed we do on earth. Revelation 20:12

Some had short sleeved garments, others long sleeved. In another place there were multitudes and multitudes of angels given to us for wisdom, they would go the

Library of Knowledge and get wisdom for us. When a person is born again, there are literally legions of angels at the disposal of the Holy Spirit on our behalf.

(Paraphrased pgs 39-43) There was an avenue that was 20-30 miles long and about 250' wide, beautiful golden and crystals streets. You could see the layers of stones for the foundation. He saw one single house carved out of a single giant pearl, even the chandelier and furniture were of pearl. "It was for a missionary who's name was Pearl, she died of starvation and it was her reward for a pure heart."

I saw a home made of clear stone with roses that were alive and growing and yet were embedded in the stone and they gave off a beautiful aroma. He saw grandfather's house. He died at age 97, but looked like he was 28-30 years old.

(Paraphrased pgs 91-93) There are vast places in heaven and buildings where people will never go. There are governments in heaven, even though it is an absolute Theocracy. He had an angel that escorted him around heaven. He asked many questions until the angels gave him this stern statements, "The mysteries of God are none of your business."

(Paraphrased pg 48) There are many books for each person. An angel about 8-9' tall writes and takes care of the hug books. Each page has like three-dimensional images with the history of our lives.

Psalms 139:16 "Your eyes foresaw my deeds, and they were all recorded in your book; my life was fashioned before it had come into being." [REB]

Revelation 20:12 "And I saw the dead, great and small, standing before the throne, and books were opened. Another book was opened, which is the book of life. The dead were judged according to what they had done as recorded in the books, [NIV]

(Paraphrased pgs 133-137) Everything that heaven is, hell is the opposite. There are hideous beings as tall as the angels that guard the gates of heaven. They were grotesque. There were flames of punishment, I felt the doom and despair. I heard people crying out, demons would take people and torture them. I saw people there that were waling skeletons with flesh of some kind hanging off of them – rotting off of them. The smell was un-breathable. Serpents eat and digest parts of people and the people are restored and it happens again.

Demons tear people apart and toss the parts, they would be restored to have it happen again.

There are degrees of punishment in hell. Those who are punished the greatest, knew the most and didn't do what they should have done.

Isaiah 66:24 "And they will go out and look upon the dead bodies of those who rebelled against me; their worm will not die, nor will their fire be quenched, and they will be loathsome to all mankind."

(Paraphrased pgs 54-55) He saw two giant buildings, they were colleges for people. There is no end to learning. You can do anything in heaven that your heart desires to do, because your desire is right.)

(Paraphrased Page 57) He was taken to a building like a huge, layered wedding cake. The bottom layer was big and round and about 15' tall, it had a lit archway. Inside they were having running revival scenes over and over. (Paraphrased page 73) Another building was a records building. Where records are kept of the rewards that we do not receive on earth for some reason. There is a rewards department in heaven.

(Paraphrased Page 65) Dress varies in heaven. Some wore some kind of pants and pull over shirt, pure white. Different colors, some in suits. Clothe was made out of heavenly material.

(Paraphrased Page 80) There is no electric current in heaven, but light is everywhere. Big chandeliers. No shadows, light is coming from every direction. The Lamb is the light. James 1:17 [KJV] Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning.

(Paraphrased Page 117) Richard said the moment he entered heaven, he knew everything flowed from the Throne of God; like pulsed dynamo. Everything is drawn to the Throne. It's a huge building beyond any ability to understand. There were thousands of steps going up and each step was significant and prophetic.
